The file you are downloading is a zip file containing two font files: bwgrkl.ttf and bwhebb.ttf. Once the zip file has been downloaded, double click it to extract the two font files. Then install the two font files as you would any other font. Here's how:

1. Click Start | Settings | Control Panel and then double click the "Fonts" icon.
2. In the Fonts applet click File | Install New Font.
3. In the Add Fonts Dialog, navigate to the folder where the extracted fonts are located.
4. Select the fonts and then click OK. The fonts are now installed.

Macintosh versions of our fonts are also available.
